Choosing SBP Products Delivers the Following Advantages:

Unmatched Availability

With SBP's vast distribution network, trusted partners, and diversified global supply chain, rest assured you'll get the volume you need when you need it.

Reliable Consistency

Rigorous manufacturing controls and adherence to standardized specifications ensure that all products are always consistent and of high quality.

Exceptional Value

Our commitment to quality at a competitive price point maximizes your investment.

Explore Our Selection of Patio Doors:

The Windsor patio door is a value-priced series built with the most advanced vinyl unmatched for strength and freedom from wear that will not rot, rust, pit or blister over long periods of time.

Our narrow sash 650 patio door makes no compromise on strength. This door features a steel-reinforced sash and wood inserts in the jambs, promising improved durability, smooth operation, and hassle-free installation. With its sleek contemporary style, this door boasts an exceptional finish that outshines the competition, proving that a PVC sliding door can offer both excellent performance and great design.

SBP operates through six brands in the United States and Canada.
