

FIBERGLASS DOOR UNITS

REEB® IN-STOCK PRODUCT OVERVIEW

Therma-Tru® Doors

Uncompromising quality, inside and out.

#1 Among Building Pros

It's a brand you can trust. Why? Because year after year, building professionals rank Therma-Tru #1—as the brand they prefer most—in entry doors.*

*Brand Use Study, 2022 Builder magazine.

Lifetime Limited Warranty

When you pay close attention to every detail that goes into a door, you can stand behind its parts longer than the rest. That's why your Therma-Tru fiberglass door system is backed with a lifetime limited warranty—the industry's most comprehensive warranty of its kind.

Energy Efficiency

More than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified** and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

**Based on version 6.0 ENERGY STAR product specification for windows, doors and skylights.

A Complete Door System

A Therma-Tru® door with genuine Therma-Tru parts is more than just a beautiful door. It's a complete door system—from the glass to the hinges—made to perform as good as it looks.

Standard Door Frame Composite Door Frame

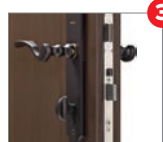

Frame Options

We can help you choose the right frame for your door system.

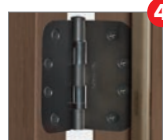

Removable Weatherstrip

Our resilient design compresses when closed and springs back when open. It's protected by a durable jacket for long-lasting sealing power.

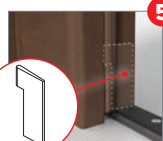

Hardware

Choose from beautiful options that will complement the look of your home and help bring you security and peace of mind.

Ball-Bearing Hinges

Hinges with ball-bearings protect each hinge pivot, offering added support and stability to help keep your door opening and closing smoothly.

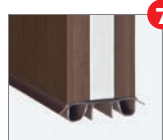

7-Shape Corner Seal Pads

(Inswing Only) This innovative design creates a protective air pocket that helps prevent a vacuum from wicking moisture up the weatherstrip.

Composite Adjustable Sills

These allow flexibility to adjust the sill cap vertically to close gaps, helping to maintain a tight seal between the sill and the bottom of the door.

Dual-Bulb / Dual-Fin Bottom Sweep

(Inswing Only) Two bulbs compress to sit tight against the sill, while two fins act like walls to form barriers and a built-in rain deflector pushes moisture away.

Standard Mullion

Composite Mullion

Mullion Options

Mullions not only give the hinges and lock a place to anchor, they come in a range of sizes from 1"—3" in width per mullion to help create an entry door system to fit the opening of your home.

Reeb® Finish

PrismaGuard® Paint

PrismaGuard Paint is a versatile color palette featuring elegant, modern hues and bold, rustic tones providing exciting options to achieve the look you desire. This offering boasts vibrant, truer-to-life colors that give the finished product additional depth and resistance to fading. Several color options are trade-matched to Reeb's storm door offering as well. All finishes on fiberglass doors are backed by a 10 year limited warranty and Reeb's unmatched reputation for quality and customer service.

Therma-Tru®

PrismaGuard® Paint

In addition to the Reeb® Finish paint palette, Reeb Finish can also apply these additional Therma-Tru® PrismaGuard® paint colors.

All finishes on fiberglass doors are backed by a 10 year limited warranty and Reeb's unmatched reputation for quality and customer service. Visit reeb.com/warranties for complete warranty information.

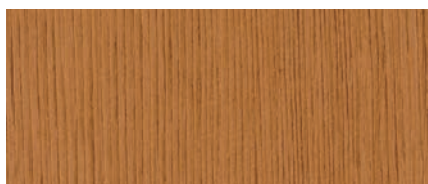

Reeb® Finish

PrismaGuard® Stain

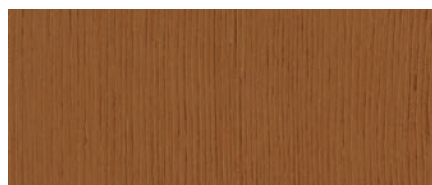

PrismaGuard Stain is a superior staining system for fiberglass doors that produces a uniquely realistic and durable finish. Skilled Reeb Finish craftsmen hand-brush each component of the door to enhance its deep embossments and authentic grain patterns. A dual top-coat highlights fine details and ensures superior endurance and protection from the elements. All finishes on fiberglass doors are backed by a 10 year limited warranty and Reeb's unmatched reputation for quality and customer service.

Impressions™ Integrated Storm Door

Available exclusively with a Reeb® Finish unit.

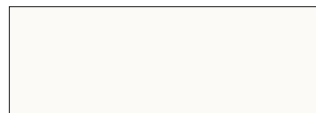

The Impressions integrated storm and entry door system is the first of its kind, with the storm door integrated flush into the brickmould portion of the door frame, creating a purposeful, cohesive unit that provides a seamless look.

Impressions Storm Door System IM100 in Black with FCM4814 in Reeb Finish Shale

Color Options

Features a maintenance-free finish.

White

Color matched to PrismaGuard Alaskan Storm / Alpine

Gray

Color matched to PrismaGuard Urban Dusk / Granite

Brown

Color matched to PrismaGuard Elk and complements most stain options

Black

Color matched to PrismaGuard Total Eclipse / Onyx

The Impressions Storm Door can be installed by a beginner in as little as 15 minutes.

After the installation of the entry door, install the closer, sweep and hardware. Follow these three simple steps to complete the job.

Scan the QR code to learn more about storm door panel installation.

1. Place the bottom pin hinge in the hinge cup.

2. Retract the top pin and insert into the top hinge cup to install the storm door panel.

3. Secure and adjust the hidden closer featuring Click&Hold™ technology.

146 Easy Vent® Selection

Fullview, Midview & Highview Retractable Screen

This Larson® premium storm door with its retractable screen offers protection against the elements and instant access to fresh air. Convenient Screen Away® retractable screen provides anytime venting and disappears when not in use. Dual weatherstrip and overlapping frame keeps weather out. Two closer system with Hold-open button keeps the door open. Universal hinging for right or left mounts.

CURVED

FINISH OPTIONS

Note: Recommended for inswing applications only. Larson retractable screens are designed to support natural ventilation and protection against airborne insects and other pests. Windy conditions may affect the performance of the screen. Retract the screen in windy circumstances, during inclement weather and when not needed to support immediate ventilation or prolonged periods of time when not used. Not intended to keep pets inside. See your Larson seller or visit www.larsondoors.com for details on limited warranties and exclusions.

LIMITED WARRANTY

Hardware Options

Schlage®

Schlage® Encode is a smart lock that allows you to lock and unlock your door using your smartphone, voice, or a PIN. It also has a built-in alarm system that will notify you if someone tries to tamper with your lock. Schlage Encode is compatible with most Wi-Fi networks and can be installed on any door that has a standard deadbolt. It is also easy to use, even for people who are not familiar with smart home technology.

FE489

THE FE489 is a pairing of a handleset with the BE489WBC deadbolt. It has built-in WiFi allowing you to access your deadbolt from anywhere using your smartphone. Create and share up to 100 access codes with friends and family with the Schlage Home or Key by Amazon apps.

PANOLOCK+

THE EASY-TO-USE, DURABLE MULTI-POINT LOCK

PanoLock+ is a multi-point lock that works with most off-the-shelf hardware including Schlage® and Kwikset electronic locks. It provides enhanced security and a smoother performance over traditional or other multi-point locks.

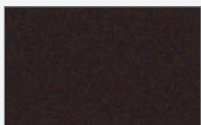

The handle controls the latch, which is the main locking point that keeps your door closed, while the deadbolt controls the top and bottom bolts, which provide additional security. PanoLock+ is easy to install and comes with a lifetime warranty.
